

If schools have to close to slow the spread of coronavirus, this will have a particular impact on families whose children receive free school meals and on families on low incomes who may not be paid if they have to take time off work to care for their children. There may also be other families struggling financially because they cannot do their jobs as places shut down.

Tiptree Churches run a small food bank based at St Luke's Church. At the moment, we are quite well stocked and we are receiving offers of donations from the local community. For as long as we have food, we will be happy to offer food parcels to families in financial difficulty who are resident in Tiptree, Tolleshunt Knights, Messing, Inworth or Great Braxted. All they need to do is contact me by phone or email and tell me you have made them aware of the food bank. The only question I will ask is what they need. We will be able to deliver if the family is in isolation.

Kind regards,

Anne-Marie
