

1:1 Parent Consultations

Every parent/carer will be invited to meet the teacher after school, once they have secured their place with us. She will then tell you more about what your child will be learning during their time in Reception class.

Home Visits

During the last month of the Summer term, the Reception Class Teacher and her Assistant will make a home visit to each child's house.

This gives each child a chance to get to know their new teachers in a place where they are comfortable.

This is an opportunity for parents/carers to express any concerns they may have or just find out anything else they would like to know.

“Stay and Play”

During July, there will be a couple of “stay and play” sessions where the children can explore their new setting once again and the sessions will end with a story.

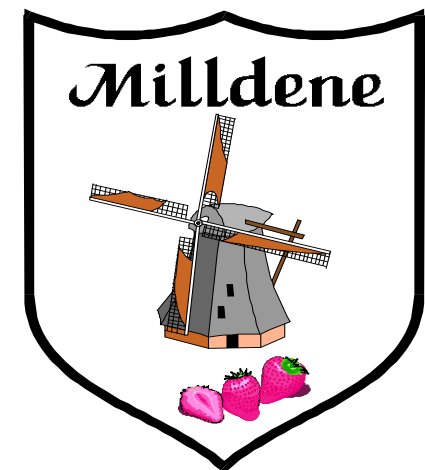

September

Over the first few days and weeks, daily excursions around the school buildings and grounds help to familiarize the children with the geography of the school and its staff.

Throughout the year, the Reception Class Teacher and her Assistant integrate with the children at lunch and break times.

When the school term starts in September, there is some flexibility regarding full time daily attendance. Arrangements can be discussed on an individual basis if parents feel that full time attendance from the first day of term would not be suitable.
